Product information provided is not complete and is subject to change without notice. Product installation must adhere strictly to instructions accompanying product to avoid risk of fire and potential injury.

FRAMING DIMENSIONS

* Frame down to fireplace after unit is installed.
** If the inside of the framed cavity is to be finished, the framing dimensions must include the finished surface. If drywall is to be attached to the rear wall, the depth must be measured from the drywall surface. Add 9-1/4 inches to framing depth for an elbow vented off the rear of the appliance.

## COMBUSTIBLE MANTEL CLEARANCES
