QUADRA-FIRE®

PERFORMANCE FROM THE BEGINNING

Founders Alan Trusler and Dan Henry spent countless nights in the lab, determined to harness the powerful force of fire in ground-breaking new ways. Over the years, Quadra-Fire® developed precision hearth designs. Stunningly strong and detailed, with powerful and efficient performance to match, the tradition lives on through these gas inserts.

WHY QUADRA-FIRE

For more than 30 years, Quadra-Fire has put performance and easy operation above all else. Today these ideals are alive and vibrant, blending our past with our present.

WHY GAS

IT'S CONVENIENT – Gas inserts are the easiest way to heat, pairing the warmth and ambiance of a traditional wood-burning fireplace with the benefits and convenience of modern technology – such as turning on the fire with a push of a button.

IT'S ECONOMICAL – Lower your overall energy bills by 20-40%, by turning your furnace down and your new gas insert on. Its easy, heat the space where you spend most of your time to the temperature you want.

WHY AN INSERT

Quadra-Fire gas inserts provide an instant upgrade to any hearth, designed to be retrofitted into an existing wood-burning fireplace. Inserts instantly transform your drafty old fireplace into a powerful, efficient and clean burning heat source.

As the fire ignites, it remains clear:

NOTHING BURNS LIKE A QUAD.

QUADRA-FIRE GAS INSERTS

FIREBRICK® GAS INSERTS

FireBrick technology provides the warmth of a real wood burning fire. Ceramic fiber material is molded into a seamless brick pattern that is hand painted by skilled artisans. Patented heat-radiating technology generates, retains and radiates significantly more heat into the room, while using less fuel and reducing heating costs.

METAL GAS INSERTS

Quadra-Fire gas metal inserts also fit directly into existing fireplaces. They immediately provide upgrades in performance with the right BTUs and high efficiencies, along with a standard fan and easy operation with IntelliFire Touch ignition system.

QUADRA-FIRE GAS TECHNOLOGIES

FIREBRICK TECHNOLOGY

FireBrick is a patented, energy-saving ceramic material molded in an authentic masonry design. FireBrick produces up to 25% more radiant heat than metal fireboxes—heating rooms faster and using less fuel. This increases efficiency and reduces heating costs. A unique ceramic composition is at the core of the FireBrick innovation.

INTELLIFIRE TOUCH® IGNITION SYSTEM

IntelliFire Touch is our most advanced intermittent-pilot ignition (IPI) system, making operating your appliance simple, smart and safe. Select the IntelliFire app, touch-screen remote control or wireless wall switch for the solution that fits your lifestyle.

DIRECT VENT TECHNOLOGY

Direct Vent gas inserts remove 100% of combustion exhaust and fumes to the outside of the home. These sealed gas inserts provide optimal heat, conserve energy and ensure clean, safe indoor air quality. To learn more, visit quadrafire.com.

In three easy steps, a Quadra-Fire gas fireplace insert can transform your existing traditional wood fireplace into a beautiful and efficient heat source without a major renovation.

STEP 1: MEASURE YOUR EXISTING FIREPLACE OPENING AND SELECT YOUR INSERT

The height, width and depth of the existing fireplace opening is needed to ensure selection of an appropriately-sized insert:

- A. Fireplace front width _____
- B. Fireplace front height _____
- C. Fireplace back width _____
- D. Fireplace depth _____
- E. Hearth to mantel height _____

When selecting your insert, keep these two factors in mind and your sure to make a solid choice:

- Consider the size of your existing fireplace opening– try and fill that space
- Consider how your insert will be used: room size, heating needs and usage frequency all come into play

STEP 2: SELECT YOUR FRONT AND SURROUND

Personalize your insert with a front that fits your style. Select from up to four styles and two finishes.

Include a surround to fill the gap between the fireplace insert and existing fireplace opening. Choose from three sizes and two finishes for a unique look.

SURROUND	QFI30FB	QFI35FB	EXCURSION I	EXCURSION II	EXCURSION III
Small	40" x 27"	42" x 29"	35" x 23"	40" x 27"	42" x 29"
Medium	42" x 30"	44" x 32"	37" x 26"	42" x 30"	44" x 32"
Large	44" x 32"	48" x 32"	39" x 28"	44" x 32"	48" x 32"

■ SMALL SURROUND ■ MEDIUM SURROUND □ LARGE SURROUND

FRONT AND SURROUND FINISHES

STEP 3: SELECT YOUR OPTIONS

Add cast iron trim, black glass interior panels or termination caps to make it your own. See all your choices on the next page.

FIREBRICK INSERT FRONTS with ClearVue™ screen

INSERT OPTIONS

BLACK REFLECTIVE GLASS INTERIOR
For use with metal inserts.

TERMINATION CAPS

Finish your gas insert with a clean, upscale look. These durable caps also protect venting components and ensure safe exhaust flow.

Square termination cap, available in black or copper finish

Round termination cap

INSERT CONTROLS

OPTIONAL INTELLIFIRE® APP

All the features of a remote control with an app installed on your smart device. Monitor your fire from anywhere or even control it with the sound of your voice. IntelliFire is compatible with voice assistants Amazon Alexa and Google Assistant.

STANDARD TOUCHSCREEN REMOTE

Features: on/off, flame height adjustment, fan speed, lights adjustment, thermostat mode, room temperature readout, child lock, timer mode, battery backup, cold climate mode, power vent, wall docking station (fan, lights and power vent are dependent on your fireplace).

OPTIONAL WIRELESS WALL SWITCH

Features: on/off, battery strength indicator, cold climate mode
